# INDEX OF AUTHORS

AIOUB, A. *See* MER, G.

AKHTAR, S. A. A new genus of Nematodes, parasitic in the pika. (With 11 Figures in the Text), 104

ARTHUR, D. R. *See* EDWARDS, E. E.

BACHI, R. *See* MER, G.

BAYLIS, H. A. The larval stages of the Nematode *Mermis nigrescens*. (With 11 Figures in the Text), 10

BAYLIS, H. A. A redescription of *Uncinaria lucasi* Stiles, a hookworm of seals. (With 6 Figures in the Text), 160

BIRKETT, BETTY. *See* BISHOP, ANN.

BIRNBAUM, D. *See* MER, G.

BISHOP, ANN, BIRKETT BETTY and GILCHRIST, BARBARA M. The response of blood-inoculated and sporozoite-induced infections of *Plasmodium relictum* to drugs, 163

CROFTON, H. D. The second ecdysis of *Trichostrongylus retortaeformis* (Zeder). (With 1 Figure in the Text), 101

DAVIES, T. I. and REES, GWENDOLEN. *Andrepigynotaenia haematopodis*, n.g., n.sp., a new protogynous tapeworm from the oystercatcher *Haematopus ostralegus occidentalis* Neumann. (With 17 Figures in the Text), 93

EDWARDS, E. E. and ARTHUR, D. R. The seasonal activity of the tick, *Ixodes ricinus* L., in Wales. (With 12 Figures in the Text), 72

FELDMAN-MUHSAM, B. Resistance of larvae and nymphs of *Hyalomma savignyi* Gerv. to various conditions of temperature and humidity. (With 2 Figures in the Text), 111

GARNHAM, P. C. C. *See* HEISCH, R. B.

GILCHRIST, BARBARA M. *See* BISHOP, ANN.

HEISCH, R. B. and GARNHAM, P. C. C. The transmission of *Spirochaeta duttoni* Novy & Knapp by *Pediculus humanus corporis* de Geer, 247

HOBSON, A. D. The physiology and cultivation in artificial media of nematodes parasitic in the alimentary tract of animals, 183

JÍROVEC, O., SCHÄFERNA, K. and ŠKORPIL, F. *Sporozoon tincae*, a pathogenic parasite of the tench. (With Plates III–V, containing Figs. 1–33), 145

MARYON, M. *See* SHUTE, P. G.

MER, G., BIRNBAUM, D. and AIOUB, A. The attraction of mosquitoes by human beings. BACHI, R. Statistical analysis of data, 1

MILNE, A. The ecology of the sheep tick, *Ixodes ricinus* L. Some further aspects of activity, seasonal and diurnal. (With 3 Figures in the Text), 27

MILNE, A. The ecology of the sheep tick, *Ixodes ricinus* L. The infestations of hill sheep. (With 6 Figures in the Text), 34

MUSPRATT, J. Note on a ciliate protozoon, probably *Glaucoma pyriformis*, parasitic in culicine mosquito larvae, 107

NAGATY, H. F. *Dipetalonema evansi* (Lewis, 1882) and its microfilaria from *Camelus dromedarius*. (With 11 Figures in the Text), 86

REES, GWENDOLEN. *See* DAVIES, T. I.

REES, GWENDOLEN. A study of the effect of light, temperature and salinity on the emergence of *Cercaria purpurae* Lebour from *Nucella lapillus* (L.). (With 13 Figures in the Text), 228

SATCHELL, G. H. The larvae of the British species of *Psychoda* (Diptera: Psychodidae). (With 84 Figures in the Text), 51

SCHÄFERNA, K. *See* JÍROVEC, O.

SHARIF, M. Nutritional requirements of flea larvae, and their bearing on the specific distribution and host preferences of the three Indian species of *Xenopsylla* (Siphonaptera), 253

SHUTE, P. G. and MARYON, M. The gametocytocidal action of paludrine upon infections of *Plasmodium falciparum*, 264

SIMMONDS, F. J. The biology of *Phytodietus pulcherrimus* (Cress.) (Ichneumonidae, Tryphoninae) parasitic of *Loxostege sticticalis* L. in North America. (With 16 Figures in the Text), 150

ŠKORPIL, F. *See* JÍROVEC, O.

SMYTH, J. D. Studies on tapeworm physiology. II. Cultivation and development of *Ligula intestinalis* in vitro. (With Plates VI–VIII and 4 Figures in the Text), 173

STEPHENSON, WILLIAM. Physiological and histochemical observations on the adult liver fluke, *Fasciola hepatica* L. I. Survival *in vitro*. (With 1 Figure in the Text), 116

STEPHENSON, WILLIAM. Physiological and histochemical observations on the adult liver fluke, *Fasciola hepatica* L. II. Feeding. (With 1 Figure in the Text), 123

STEPHENSON, WILLIAM. Physiological and histochemical observations on the adult liver fluke, *Fasciola hepatica* L. III. Egg-shell formation. (With Plate II and 4 Figures in the Text), 128

STEPHENSON, WILLIAM. Physiological and histochemical observations on the adult liver fluke, *Fasciola hepatica* L. IV. The excretory system. (With 3 Figures in the Text), 140

STEWARD, J. S. Host-parasite specificity in coccidia: infection of the chicken with the turkey coccidium, *Eimeria meleagridis*, 157

TURK, FRANK A. Studies of acari. IV. A review of the lung mites of snakes. (With 9 Figures in the Text), 17

TURK, FRANK A. On two new species of tick. (With 11 Figures in the Text), 243

WEBB, J. E. The structure of the cuticle in *Eomenacanthus stramineus* (Nitzsch), (Mallophaga). (With Plate 1), 70

# INDEX OF SUBJECTS

Acari. Review of the lung mites of snakes, 17
*Andrepigynotaenia haematopodis*, n.g., n.sp., a new protogynous tapeworm from the oystercatcher *Haematopus ostralegus occidentalis* Neumann, 93
Attraction of mosquitoes by human beings, 1

*Camelus dromedarius*, *Dipetalonema evansi* (Lewis, 1882) and its microfilaria from, 86
*Cercaria purpurae* Lebour, a study of the effect of light, temperature and salinity on the emergence of, from *Nucella lapillus* L., 228
Coccidia, host-parasite specificity in, 157
Culicine mosquito larvae, note on a ciliate protozoon, probably *Glaucoma pyriformis*, parasitic in, 107
Cuticle, the structure of the, in *Eomenacanthus stramineus* (Nitzsch) (Mallophaga), 70

*Dipetalonema evansi* (Lewis, 1882) and its microfilaria from *Camelus dromedarius*, 86

Ecdysis, the second, of *Trichostrongylus retortaeformis* (Zeder), 101
Ecology of the sheep tick, *Ixodes ricinus* L., some further aspects of activity, seasonal and diurnal, 27; the infestations of hill sheep, 34
*Eimeria meleagridis*, infection of the chicken with the turkey coccidium: host-parasite specificity, 157
*Eomenacanthus stramineus* (Nitzsch), (Mallophaga), the structure of the cuticle in, 70

*Fasciola hepatica* L., physiological and histochemical observations on the adult liver fluke. I. Survival *in vitro*, 116; II. Feeding, 123; III. Egg-shell formation, 128; IV. The excretory system, 140
Flea larvae, nutritional requirements of, 253

Gametocytocidal action of paludrine upon infections of *Plasmodium falciparum*, 264
*Glaucoma pyriformis*, a ciliate protozoon, 107

*Haematopus ostralegus occidentalis*, Neumann; *Andrepigynotaenia haematopodis*, n.g., n.sp., a new protogynous tapeworm from, 93
Hookworm, of seals, a redescription of *Uncinaria lucasi* Stiles, 160
Host-parasite specificity in coccidia: infection of the chicken with the turkey coccidium *Eimeria meleagridis*, 157
*Hyalomma savignyi* Gerv., resistance of larvae and nymphs of, to various conditions of temperature and humidity, 111

*Ixodes ricinus* L., the ecology of the sheep tick, some further aspects of activity, seasonal and diurnal, 27; the infestations of hill sheep, 34
*Ixodes ricinus*, the seasonal activity of the tick in Wales, 72

Larvae of the British species of Psychoda (Diptera: Psychodidae), 51
Larval stages of the nematode *Mermis nigrescens*, 10
*Loxostege sticticolis* L., the biology of *Phytodictus pulcherrimus* (Cress.) (Ichneumonidae, Tryphoninae) parasitic of, in North America, 150
Lung mites of snakes, a review of, 17

*Mermis nigrescens*, the larval stages of the nematode, 10
Mosquito, culicine larvae, note on a ciliate protozoon, probably *Glaucoma pyriformis*, parasitic in, 107
Mosquitoes, attraction of, by human beings, 1

Nematode, *Mermis nigrescens*, the larval stages of, 10
Nematodes, a new genus of, parasitic in the pika, 104
Nematodes, parasitic in the alimentary tract of animals, the physiology and cultivation in artificial media of, 183
*Nucella lapillus* L., a study of the effect of light, temperature and salinity on the emergence of *Cercaria purpurae* Lebour, from, 228
Nutritional requirements of flea larvae, and their bearing on the specific distribution and host preferences of the three Indian species of *Xenopsylla* (Siphonaptera), 253

Oystercatcher, *Haematopus ostralegus*, a new protogynous tapeworm from, 93

Paludrine, the gametocytocidal action of, upon infections of *Plasmodium falciparum*, 264
*Pediculus humanus corporis* de Geer, the transmission of *Spirochaeta duttoni* Novy & Knapp by, 247
Physiology and cultivation in artificial media of nematodes parasitic in the alimentary tract of animals, 183
*Phytodictus pulcherrimus* (Cress.) (Ichneumonidae, Tryphoninae), the biology of, parasitic of *Loxostege sticticalis* L. in North America, 150
Pika, a new genus of nematodes parasitic in, 104
*Plasmodium falciparum*, the gametocytocidal action of paludrine upon infections of, 264
*Plasmodium relictum*, the response of blood-inoculated and sporozoite-induced infections of, to drugs, 163
Protozoon, note on a ciliate, probably *Glaucoma pyriformis*, parasitic in Culicine mosquito larvae, 107
Psychoda (Diptera: Psychodidae), the larvae of the British species of, 51

Resistance of larvae and nymphs of *Hyalomma savignyi* Gerv. to various conditions of temperature and humidity, 111

Seals, A redescription of *Uncinaria lucasi* Stiles, a hookworm of, 160
Seasonal activity of the tick, *Ixodes ricinus*, in Wales, 72
Snakes, a review of the lung mites of, 17
*Spirochaeta duttoni* Novy and Knapp, the transmission of, by *Pediculus humanus corporis* de Geer, 247
*Sporozoon tincae*, a pathogenic parasite of the tench, 145

Tapeworm physiology, studies on. II. Cultivation and development of *Ligula intestinalis in vitro*, 173
Tench, *Sporozoon tincae*, a pathogenic parasite of, 145
Tick, on two new species of, 243
*Trichostrongylus retortaeformis* (Zeder), the second ecdysis of, 101

*Uncinaria lucasi* Stiles, a redescription of, a hookworm of seals, 160

*Xenopsylla* (Siphonaptera), nutritional requirements of flea larvae, and their bearing on the specific distribution and host preferences of the three Indian species of, 253
